INDEX

PROCEEDINGS OF THE AMERICAN CONCRETE INSTITUTE

VOLUME 32—1936

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 7, Sept.-Oct., 1935 to May-June 1936

This is an Index of:

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—papers, reports, discussions by subject, title and author.

In general, important subjects are classified and indexed under approximately 30 main headings each one appearing in its proper alphabetical order in bold face capital letters—as for instance, ARCHITECTURAL DESIGN. "Surface treatment" and other subjects classified under this head, are indented.

Key words to important subjects appear, in alphabetical order in addition to the general classification—as for instance "Admixtures" and "Blast furnace slag," each referring to MATERIALS AND TESTS under which all allied references appear, indented. Authors' names and original titles of papers appear in bold face type in proper alphabetical sequence with the subjects, with references to their contributions.

Specific data on Beams are so indexed by reference to ENGINEERING DESIGN or TESTS OF MEMBERS AND COMPLETED STRUCTURES thus avoiding an oversight by the searcher of important allied data.

The readiest use may be made of this index by gaining some familiarity with the main classifications as follows:

ARCHITECTURAL DESIGN
BIBLIOGRAPHIES
BREAKWATERS—DOCKS AND SEA WALLS
BRIDGES
BUILDING CODES
BUILDINGS
BUILDING UNITS
CENTRAL MIXING
COMMITTEES
CONSTRUCTION—DETAILS, METHODS AND COSTS
CURING
DAMS

A

Aggregate production for Grand Coulee dam. Gordon F. Dodge..... 317
Alternate heating and cooling of mortar. E. R. Dawley..... 609
Analysis of multiple span rigid frame bridges by the slope deflection method. George A. Maney..... 495
—Disc. Wyly, Overolt, Wise, Maney.... 767
Architectural considerations in bridge design. Morris Goodkind..... 29
At the forks. P. H. Bates..... 401
ARCHITECTURAL DESIGN
Bridge—Considerations. Goodkind..... 29

B

Ball, Charles F.—Concrete by pump and pipeline..... 333
Bates, P. H.—At the forks—President's address..... 401
Bertin, R. L.—Economics of ready mix versus job mix concrete—Report of committee 610..... 309

BIBLIOGRAPHIES
Cements — Portland-Pozzolan — Properties. Davis, Kelly, Troxell and Davis.. 80
Curing—Effect of temperature on strength. Sprague..... 212
Field tests—Average job. Ross..... 277
Mass concrete—Large cylinders. Disc. Gilkey..... 235
Plastic flow—Mechanics of. Shank..... 149
—Disc. Ernst..... 705
—Fridenson..... 704
—Gilkey..... 705
—Shank..... 784
Vibration—Committee 609 report. Lindau and Flodin..... 445
Workability—Factors of. Herschel and Pisapia..... 641
Blanks, R. F.—Disc. Mass concrete tests in large cylinders..... 254
Boulder dam—Permeability of mass concrete. Disc. Ruettgers, Vidal and Wing..... 378

BRIDGES
Architectural considerations. Goodkind... 29
Foundation — Underwater placement. Hands..... 365
Highway—San Francisco-Oakland Bay—Field control. Stanton..... 1
Rigid frame—Design by slope deflection method. Maney..... 495
—Disc. Maney..... 773
—Overholt..... 771
—Wise..... 772
—Wyly..... 767

BUILDING CODES
Regulations for reinforced concrete—501-36T—Committee 501 report..... 407
—Disc. Nichols..... 743
—Norton..... 744
—Wheeler..... 746
Slabs—Supported on four sides. DiStasio and Van Buren..... 350
Standard—Committee 501 report. Stephens and Zipprodt..... 181
Building regulations for reinforced concrete. Committee 501 report—Standard Building Code. A. W. Stephens, Chairman; R. R. Zipprodt, Secretary..... 407
—Disc. Nichols, Norton, Wheeler..... 743

BUILDINGS
General — Code regulations — Committee 501..... 407
—Disc. Nichols..... 743
—Norton..... 744
—Wheeler..... 746
—Economics of high strength concrete Richart..... 459
—Disc. Dunagan..... 788
—Rayburn..... 790
—Wernisch..... 787
—Withey..... 789
—Sound absorption in. Watson and Morrical..... 659
—Disc. Watson.....775, 777
—Wheeler..... 775
—Wilk..... 776

C

Capp, Frank W.—Maintaining concrete structures..... 579
Carlson, R. W.—Disc. An investigation of the permeability of mass concrete with particular reference to Boulder Dam..... 129
Carlson, C. C.—Tests of the resistance of concrete masonry walls to the penetration of rain..... 485
—Disc..... 760
Cement and concrete control—San Francisco-Oakland bay bridge. Thomas E. Stanton..... 1
Chubb, J. H.—Disc. High early strength cements in concrete masonry manufacture—Committee 710 report..... 779
Cohen, A. Burton—Supervision and inspection of concrete..... 40
Collins, D. R.—Disc. Studies of high pressure steam curing of concrete slabs and beams.. 752
Collins, H. G.—A method for determining the air content of freshly mixed mortars and concretes..... 298
Colors—See MATERIALS AND TESTS—Admixtures.
Comess, Sam—Practical applications of vibration for placing concrete..... 68

COMMITTEES
Committee activities—Revival of interest in the Institute. Bates..... 401

Committee 501 report. Standard building code. Stephens and Zipprodt..... 181
—Standard building code..... 407
—Disc. Norton..... 744
—Nichols..... 743
—Wheeler..... 746
Committee 609 report—Placing concrete by vibration. Lindau and Flodin..... 65, 445
—Disc. Davis..... 681, 737
—Douglass..... 682
—Lindau..... 681
—Mall..... 741
—McCarty..... 685
—Merciot..... 687
—Moreell..... 681
—Philleo..... 740
—Walter..... 738
—Wheeler..... 739
Committee 610 report—Economics of ready-mix versus job mix. Bertin..... 309
Committee 710 report—Use of high early strength cements in concrete products..... 673
—Disc. Chubb..... 779
—Pearson..... 780
—Shields..... 778
—Soloman..... 781
—Wilk..... 778, 782
Concrete at Norris dam. I. L. Tyler..... 285
Concrete by pump and pipeline. Chas. F. Ball..... 333
Concrete Maintenance. L. F. Harza and H. G. Roby..... 571
Concrete restoration in water impounding structures. J. Lamprecht..... 533
Concrete slabs reinforced with welded wire fabric. T. D. Mylrea..... 219
Concrete vibrating practices in France. B. Moreell..... 66

CONSTRUCTION—DETAILS, METHODS AND COSTS

Bridge — San Francisco-Oakland-Bay — Field Control. Stanton..... 1
Buildings—Economics of high strength concrete. Richart..... 459
—Disc. Dunagan..... 788
—Rayburn..... 790
—Wernisch..... 787
—Withey..... 789
—Regulations for—Code—Committee 501 407
—Disc. Nichols..... 743
—Norton..... 744
—Wheeler..... 746
Chimneys—Specifications. A. C. I. 505-36T. Dockstader..... 715
Dam—Norris—Gravity section. Tyler..... 285
Inspection. Young..... 46
Inspection and supervision. Cohen..... 40
—Disc. McNamara..... 688
Maintenance. Harza and Roby..... 571
Maintenance of structures. Capp..... 579
Mixing—Ready-mix versus job-mix—Committee 610 report. Bertin..... 309
Placing—Pump and pipeline method. Ball. 333
—Vibration—Committee 609 report. Lindau and Flodin..... 445
—Disc. Davis..... 737
—Mall..... 741
—Philleo..... 740
—Walter..... 738
—Wheeler..... 739
—Underwater concrete—Bridge foundation. Hands..... 365
Restoration—Water compounding structures. Lamprecht..... 533
Supervision and inspection. Cohen..... 40
—Disc. McNamara..... 688
Vibration—Committee 609. Lindau..... 65
—Disc. Davis..... 681
—Douglass..... 682
—Lindau..... 681
—McCarty..... 685
—Merciot..... 687
—Moreell..... 681
—Observations in the field. Powers..... 74
—Practical applications. Comess..... 68
—Practices in France. Moreell..... 65
Walls—Painting for waterproofing. Copeland and Carlson..... 485
—Disc. Carlson..... 760
—Disc. Copeland..... 756, 760
—Dieckmann..... 755
—Douglass..... 757
—Moreell..... 758
—Muenzer..... 756
—Parsons..... 756
—Pearson..... 760
—Vanderwerp..... 755
—Walter..... 759
Copeland, R. E.—Load performance tests of precast joist—Precast slab floor construction..... 195
—Tests of the resistance of concrete masonry walls to the penetration of rain..... 485
—Disc..... 756, 760

CURING

High pressure steam—Block. Menzel..... 51
Pressure concrete — Water impounding structures. Lamprecht..... 533
Steam—High pressure—Beams and slabs. Menzel..... 621
—Disc.—Collins..... 752
—Menzel..... 749
—Pearson..... 750
—Wilk..... 751
Temperature—Effect on strength. Sprague. 212

D

DAMS

Boulder — Mass concrete — Permeability. Disc. Meyers..... 230
Grand Coulee — Aggregate production. Dodge..... 317
Gravity section—Norris. Tyler..... 285

Maintenance of. Harza and Roby..... 571
Norris—Gravity section. Tyler..... 285
Restoration of. Lamprecht..... 533
Davis, Harmer E.—Properties of mortars and concretes containing portland-puzzolan cements..... 80
Davis, Raymond E.—Disc. Committee 609 report—Placing concrete by vibration.... 681
—Disc. Recommendations for placing concrete by vibration..... 737
—Properties of mortars and concretes containing portland-puzzolan cements..... 80
Dawley, E. R.—Alternate heating and cooling of mortar..... 609
Dieckmann, George P.—Disc. Tests of the resistance of concrete masonry walls to the penetration of rain..... 755
DiStasio, J.—Slabs supported on four sides.. 350
Dockstader, E. A.—Tentative standard specifications for the design and construction of reinforced concrete chimneys..... 715
Dodge, Gordon F.—Aggregate production for Grand Coulee dam..... 317
Douglass, A. S.—Disc. Committee 609 report—Vibration of concrete..... 682
—Disc. Tests of the resistance of concrete masonry walls to the penetration of rain... 757
Dunagan, W. M.—Disc. A study of the economics of high strength concrete in building construction..... 788

DURABILITY

Disintegration. Capp..... 579
—Dam. Harza and Roby..... 571
—Studies. Scholer..... 593
—Water compounding structures. Lamprecht..... 533
Tests—Alternate heating and cooling. Dawley..... 609

E

Economics of ready-mix versus job-mix concrete. Committee 610 report. R. L. Bertin, Chairman..... 309
Effect of curing temperature on the compressive strength of concrete at early ages. J. C. Sprague..... 212

ENGINEERING DESIGN

Bridge — Rigid frame — Slope deflection method. Maney..... 495
—Disc. Maney..... 773
—Overholt..... 771
—Wise..... 772
—Wyly..... 767
Buildings—Regulations for—Code. Committee 501..... 407
—Disc. Nichols..... 743
—Norton..... 744
—Wheeler..... 746
Building regulations — Standard — Committee 501 report. Stephens and Zipprodt..... 181
Chimney—Specifications. A. C. I. 505-36T. Dockstader..... 715
Continuous frames—Disc. Hayden..... 121
Slabs—Supported on four sides. DiStasio and Van Buren..... 350
Ernst, George C.—The mechanics of plastic flow of concrete..... 705

F

Factors of workability of portland cement concrete. W. H. Herschel and E. A. Pisapia..... 641
—Disc. Sprague, Herschel and Pisapia... 763
Flodin, H. L.—Recommendations for placing concrete by vibration..... 445
Friberg, Bengt.—Disc. Isteg steel for concrete reinforcement..... 693
Fridenson, B.—Disc. The mechanics of plastic flow of concrete..... 704

INDEX

CURRENT REVIEWS

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 7, Sept.-Oct. 1935 to May-June, 1936

For information as to indexing methods see Proceedings Index, p. 791

A

Aerodynamical studies—Wind tunnel. *Concrete and Constructional Engineering*..... 134
Aerometer test—Moisture in sand. Hallstrom. *Betong*..... 139
Alpha beams—Combination floor panels. *Le Genie Civil*..... 140

ARCHITECTURAL DESIGN

Staircase—Circular. *Concrete and Constructional Engineering*..... 133
Buildings—Flats. *Concrete and Constructional Engineering*..... 133
Monument—General Obregon. Echeagaray. 263

B

BIBLIOGRAPHIES

Cement research—Progress in 1934. Platsmann. *Zement*..... 136
Portland cement—Hardening theory. Hoffman. *Bull. 52, Cement Institute of Technical Institute of Berlin*..... 264

BRIDGES

Arch—Circular or polygonal—Statics of. Dunn. *Concrete and Constructional Engineering*..... 133
—Effect of time yield upon deformation. Wilson and Kluge. *Bull. 275, Eng. Experiment Station, Univ. of Ill.*..... 272
—Highway—River Lot. Cazes. *Les Annales des Ponts et Chaussees*..... 142
—North of Arctic circle. Haggbom. *Betong*..... 266
—Over Seine. *Concrete and Constructional Engineering*..... 135
—Wind stresses in. Eremin. *Proc., Am. Soc. C. E.*..... 390
Girder—Competitive designs—Germany. Pistor. *Die Bautechnik*..... 526
—Continuous. Benesch and Morgan. *Eng. News-Record*..... 718
Highway—Through trusses. Berry and Runciman. *Eng. News-Record*..... 717
Viaduct—Newport. *Concrete and Constructional Engineering*..... 134

BUILDING CODES

Floor panels. Reynolds. *Concrete and Constructional Engineering*..... 134
French regulations. *Les Annales des Ponts et Chaussees*..... 136

BUILDINGS

Flats—Working-class. *Concrete and Constructional Engineering*..... 133
Houses—Low-cost homes. *Eng. News-Record*..... 717
International Exposition in Brussels. Calfas. *Le Genie Civil*..... 145
Roof—Three hinged arch. *Eng. News-Record*..... 265

C

Calcium-alumina-hydrate—Hydraulic equilibrium of. Polheim. *Bull. 51, Cement Institute of Technical Inst. of Berlin*..... 265
Calcium-ferro-hydrate—Hardening of portland cement. Hoffmann. *Bull. 52, Cement Institute of Technical Institute of Berlin*.... 264
Cold weather concreting—See CONSTRUCTION—DETAILS, METHODS AND COSTS.

STRUCTURAL MEMBERS

Beams—Charts for checking. Porter. *Concrete and Constructional Engineering*.... 133
——Current research. Thompson. Unpublished..... 147
Beams and slabs—Restraint by torsion. Schjodt *Bull. No. 8, 1934, Norske Videnskabers Selskabs Skrifter*..... 138
Beams—Shallow—Flexural resistance. McCullough. *Eng. News-Record*..... 266
Bents and frames—Continuous. Bordier. *Le Genie Civil*..... 722
Floor panels—Alpha beams—Gamma floors *Le Genie Civil*..... 140
Floors—Special lightweight systems. *Concrete and Constructional Engineering*.... 523
Truss—Vierendul. L'Hermite. *Le Constructeur de Ciment Arme*..... 136
——Bending and tension. Gumensky. *Proc., Am. Soc. C. E*..... 390

SURFACES

Floor—Wearing of. Suenson. Reprint.... 392

T

TESTS AND FIELD CONTROL

Methods—Comparison of. Graf. *Zement*.. 720
Mortar—Plastic. Haegermann. *Zement*... 265
Predicting strength—Quality factor. Neuffer. *Zement*..... 141
Procedure—Small jobs. Bolomey. *Le Constructeur de Ciment Arme*..... 395
Proportioning. Dantinne and Jacquemin. *Univ. of Liege, Bull*..... 718

TESTS OF MEMBERS AND COMPLETED STRUCTURES

Arch—Bridge with decks on slender piers. Wilson and Kluge. *Bull. 270, Eng. Experiment Station*.....273–274
Beams and floors—Stresses in reinforcement. *Structural Engineer*..... 269
Beams—Austrian. *Eng. News-Record*..... 134
——Flexure and eccentric loading. Brandtzaeg. *Trondhjem*..... 266
——High elastic limit steel. Gilkey and Ernst. *Highway Research Board*..... 727
——High strength materials. Emperger. *Beton u. Eisen*..... 717
——Shallow—Flexural resistance. McCullough. *Eng. News-Record*..... 266
Columns—Flexure and eccentric loading. Brandtzaeg. *Trondhjem*..... 266
Floor panel—Isteg reinforcement. *Concrete and Constructional Engineering*..... 136
Girder—New type. Freyssinet. *Concrete and Constructional Engineering*..... 732
Pavement slabs. Spangler. *Highway Research Board*..... 726
Road slabs—Dynamic effect. Ramspeck. *Die Betonstrasse*..... 529
Vierendul truss. L'Hermite. *LeConstructeur de Ciment Arme*..... 136
Theorem of nine displacements in arch design. Mise. *Memoirs of Faculty of Engineering, Kyushu Imperial University*..... 144
Thermal action—See LAWS AND PROPERTIES.
Tunnels—See CONSTRUCTION, DETAILS, METHODS AND COSTS—Placing.

V

Vaults—Air raid protection. Ruehe. *Zement*. 390

VIBRATION

——Compacting highway pavement. Graf. *Die Betonstrasse*..... 393
——Construction viewpoints. Wells. *Highway Research Board*..... 717
——Pan-type finishing machines. Reagel and Willis. *Highway Research Board*.. 720
——Pavement construction—Ohio. Litehiser. *Highway Research Board*..... 721
——Repairing and strengthening structures. Tournay. *Le Genie Civil*..... 141
——Study of. Hermite and Mariani. *Annales de L'Institut Technique due Batiment et des Travaux Publics*..... 724
Vibrated concrete—Bond resistance. Cassie. *Structural Engineer*..... 271
——Different methods. Treves. *Le Genie Civil*..... 398
Vierendeel truss—Design. Gumensky. *Proc., Am. Soc. C. E*..... 390
——Design and test. L'Hermite. *Le Constructeur de Ciment Arme*..... 136
